

Security

Cabin Childcare recognise and accept their corporate responsibility to provide a safe and secure environment for children, employees and visitors to the nursery.

The nurseries security procedures will operate within the framework described in this policy.

- Where appropriate management will seek any necessary expert advice to determine the security risks and precautions required to deal with them.
- Management will provide staff with enough resources, information and training to implement the security procedures.

The following groups and/or individuals have responsibilities for ensuring the security of the school.

Management will:

- ensure that the nursery has a security policy and that this has been implemented.
- ensure that all staff within the nursery receive information, instruction and training in the security policy and procedures.
- ensure that all visitors, contractors, and agency staff adhere to the security policy.
- monitor the implementation of the policy and security arrangements
- periodically review the security policy.
- delegate the day-to-day implementation of the policy to the health and safety officer.

Staff will:

- All staff will comply with this policy and the arrangements made by management to ensure the safety of children, employees and others on the site.

Arrangements

Cabin Childcare has agreed the following arrangements to ensure the safety and security of staff, children and other persons using the school premises.

Information and Communication:

All staff must be aware of the security procedures, especially staff that have been given a specific role to play.

All staff inductions will include the security policy and will be recorded on the employees' training record.

These arrangements will be communicated to all third parties that use the premises and grounds. All will be expected to comply with the security arrangements as a condition of shared use of the building.

Parents will be informed about the security arrangements and what is expected of them, e.g., when visiting or at handover times.

Controlled access and egress during the day:

Controlled access is a combination of measures to ensure that unauthorised visitors do not present an unacceptable risk to children or staff.

The extent of physical controls, such as fences, has been decided by a robust risk assessment of the likelihood of visitors presenting a risk and the reasonableness of the control measures needed to reduce this risk. Cabin Childcare has, through risk assessments, balanced with the need to remain a welcoming environment to the community whilst safeguarding children at all times.

The nursery will take all reasonable efforts to restrict access to the building to prevent unauthorised access to children and ensure the personal safety of staff.

The following parts of the school have been secured by means of physical restrictions such as fencing and electronic access control.

- Garden – secured on all sides by high level fencing. Supervision by staff is maintained constantly whenever children are outdoors.

Access into Outside EYFS area is only available during drop-off/collection times, when gates are manned, and staff are stationed around the nursery garden and entrance to the nursery building. Gates on outside area high level and locked. Doors going from the building into the EYFS outside area cannot be opened from outside.

All gates have locks and fixings that prevent an early years child opening the gate to exit this area without adult supervision.

Where this area is adjacent to where members of the public have unsupervised access, consideration has been given to improved fencing where required. The extent of fences will be decided by risk assessment.

Control of Visitors

The control of visitors is a fundamental part of security policy for the safeguarding of both people and property. All visitors will be issued with a sticker to wear indicating they are a visitor and have signed in correctly. Anyone in the building without a sticker will be questioned about why they are in the building.

ALL STAFF ARE ALSO EXPECTED TO SIGN IN AND OUT OF THE BUILDING.

- For their own safety, any authorised visitors will be given appropriate information on the school's health & safety procedures such as parking, fire safety and first aid.

Supervision of children

The overall safeguarding strategy requires that at times the security of children is achieved by competent supervision by authorised staff.

Locations where supervision is part of our safeguarding procedures -

Nursery Indoor environment:

Children are always supervised in this area and any visitors challenged. Most visitors access nursery through the main entrance.

Handovers:

Children are brought directly into the nursery garden by parents and handed over to key persons.

Supervision of contractors

Contractors and maintenance personnel will not always have been DBS checked as they should not have unsupervised access to children. They will therefore be controlled as follows -

- All will be given 'VISITOR' badges after signing in and will be expected to wear them whilst onsite.
- They will only park where authorised to do so.
- Will only carry out work agreed at the start of the contract and at the times agreed.
- Will be supervised at all times by staff. This does not mean watched continuously, but in a way proportionate to their location and proximity to unsupervised children.

Lone Workers

Cabin Childcare has Lone Working Risk Assessments for staff where there is a security risk due to the need to work alone in either the Cabin or the Cottage - no staff member will ever be entirely alone on the site.

CCTV

The CCTV system on both external gates is part of our security procedures. The system has the ability to record incidents/people attempting to enter to enable evidence to be presented to the appropriate authorities.

Personal Property

Personal property will remain the responsibility of its owner. This includes both staff and children's personal property. Both are discouraged from bringing any valuable personal property.

Lost property is kept in a basket in nursery. Items are displayed regularly near the garden entrance, so that parents can collect and take home. Unwanted items are donated to charity.

Risk Assessment

A security risk assessment will be completed annually by management. The findings will be used in the review of this security policy.

Monitoring and Review

The health and safety officer will monitor the performance of this policy and report breaches, failings, or security related incidents to management.

This policy will be reviewed annually by the management team.
